Note: All league secretaries receive a printed final average request form to complete at the end of the season that is mandatory per USBC. Also on the form there is a request asking for the name(s) of the person(s) who bowled the highest game and series in the league so they can be recognized as above. They can also attach a copy of the final standing sheet so I can get the information that way. As you can see above, there were some who did not and at this time I would like to thank those who did submit the information requested. The request also included all 299 & 300 games and also all 700, 800 series to be in this book.

Note: The 700 scores listed are the only ones reported by the league secretaries and also from a report from Winlabs (when awards are processed). League secretaries were requested to write on the final average report all 700's and 800's rolled even if the bowler has already earned the award. If you should have had a 700 series not listed here, please see your secretary and ask why your score(s) were not listed.
